Vaccination and Parasite Policy

To prevent the spread of disease while your pet is in our care, dogs must be current on rabies, bordetella (within the last 6 months) and distemper/parvo vaccinations. It is the responsibility of the owner to provide proof of vaccination history for each animal boarding. The vaccinations must have been administered by a veterinarian. Animals whose shots are not up to date must be vaccinated by Northgate Animal Hospital prior to admittance and at the owner's expense or they will not be allowed to board. To insure the protection of all the pets under our care, the following vaccinations must be up to date prior to boarding. If any fleas/ticks or internal parasites are seen on pet, they will be treated accordingly for the safety of themselves and other boarding guests.

Date Given: Rabies _____ Distemper/Parvo _____ Bordetella-6 month vaccine _____

Current on Flea/Tick/Heartworm Yes No
